

## PRESS RELEASE

### **Hidden Park Campaign and PT Indika Energy Tbk Creating Positive Activities at City Park for Urban Community**

**Jakarta, 27 February 2014** – The Hidden Park Public Campaign, an alternative urban community activity for discovering and exploiting the potential of space carried, was carried out at Taman Tebet with the understanding that the involvement society at large must be encouraged for this kind of communal activity that is meant to improve the quality of urban life and maintain green space.

During the campaign from October 26 October to 17 November 2013, as many as 20 communities, including Si Dalang, Deft Clubs, Social Yoga and Si Bocah, partnered up with each other and private sector entities to install various artistic elements and attractive ornaments in the park, in the midst of a variety of creative activities also designed to improve the facilities and functions of city parks.

Indika Energy actively participated in the effort by developing a playground area in the park. "From the beginning we were very keen to contribute to improving the existing playground facility in Tebet. We believe that supporting playground activities, which are in line with Education, one of Indika Energy's Corporate Social Responsibility three pillars, can help children develop their motor skills." said Ratih Loekito, VP Corporate Social Responsibility at PT Indika Energy Tbk.

Indika Energy provided a variety of additional equipment and facilities for the park, including a Play Fort, swings, teeter totters, slides, and a spinning steering wheel; all with a touch of natural design. "We hope our contribution can provide benefits for the city park and increase the interest of the public in outdoor activities," Ratih added.

In line with the Jakarta government program for maximizing open space in Jakarta in cooperation with the Directorate General of the Ministry of Public Works, Hidden Park is a campaign that invites the public to take an active role in improving city parks by further developing them as places for children and adults alike to participate in educational and creative activities. It is expected that the Hidden Park program will give rise to a sense of ownership and responsibility for the upkeep of city parks among local communities that can be duplicated in other cities across Indonesia.
